SUMMARY DESCRIPTION OF BUSINESS

What is our business?

The Company is an iron ore exploration and development company with its project located in the Dnipropetrovsk region of Ukraine. The Company holds a 100% interest in a mining permit that covers an area of approximately 2.56 square kilometers and comprises the Shymanivske iron ore deposit (the "**Shymanivske Project**") through Shymanivske Steel LLC.

The Shymanivske Project is strategically situated in Ukraine between markets in Europe, Asia, and the Middle East. It is located 330 kilometres southeast from Kyiv in central Ukraine, in the well-known KrivBass iron ore mining district. The mine site is eight kilometres from the city of Kryvyi Rih. The

ArcelorMittal iron ore mining and steel production operations purchased in 2005 from Ukraine's Government are located immediately to the north of the property and Metinvest/Evraz's southern iron ore processing property is located immediately to the south-east.

Recent Developments

On February 24, 2022, Russia invaded Ukraine and, as of the date hereof, this war is ongoing. The war has greatly increased the risk associated with investments in Ukraine and may have a material adverse effect on the Company's ability to develop the Shymanivske Project.

Black Iron's project is located near Kryvyi Rih, Ukraine. Kryvyi Rih is a city with a population of roughly 630,000 people located in the center of Ukraine, on the western side of the Dnieper River, and is where the majority of Ukraine's iron ore mines are located and generally continue to operate. Fortunately, there has not been any active fighting on the ground in this city, but there have been instances of missile attacks. Residents have good access to groceries, gasoline, and banks in the city are functioning normally.

Black Iron's management is primarily focused on securing land essential for the construction of the Project, renewing our mining permit (which has an expiry date of November 2024, but extended by the current period of martial law), and positioning the Company in front of investors interested to participate in the rebuilding of Ukraine. During 2025, the Company completed the engineering, environmental and public hearings required and received approval to commence surface mining of 1% of its ore body, as required for its mining license renewal. Alternatively, based on external legal counsel advice, it is also possible to enter into a profit-sharing agreement with Ukraine's government to renew this permit in which case it is the governments discretion to require 1% of the ore body to be mined as a prerequisite to permit renew. The Company received a positive Environmental Impact Assessment conclusion dated April 25, 2025, with respect to the proposed mining of 1% of its ore body.

While management believes it is taking appropriate measures to support the sustainability of the Company's business in the current circumstances, a continuation of the current business environment could negatively affect the Company's results and financial position. It is unlikely that the Shymanivske Project will be viable absent the cessation of hostilities and the establishment of reliable rule of law in Ukraine.

MATERIAL FACTS

There are no material facts about the securities being distributed hereunder that have not been disclosed either in this offering document or in another document filed by the Company over the 12 months preceding the date of this offering document on the Company's profile at www.sedarplus.ca. You should read these documents prior to making an investment decision regarding the Offered Securities.

How will we use the available funds?

The Company intends to use the net proceeds of the Offering as follows: (i) approximately US\$560,000 (C\$774,200) for expenditures on the Shymanivske Project for fiscal 2026; (ii)

approximately US\$600,000 (C\$829,500) for working capital purposes for fiscal 2026 and (iii) remaining proceeds available for working capital or to be deployed as required.

Description of intended use of available funds listed in order of priority	Assuming minimum Offering only	Assuming 100% of the Offering
Expenditures on the Shymanivske Project for 2026	US\$560,000 (C\$774,200)	US\$760,000 (C\$1,050,700)

Other general and administrative costs	US\$100,000 (C\$138,250)	US\$135,000 (C\$186,637)
Outstanding account payables	Nil	Nil
Working capital	US\$250,000 (C\$345,625)	US\$534,000 (C\$738,255)
Total: Equal to G in the Use of Available Funds table	US\$1,410,000 (C\$1,949,325)	US\$2,084,000 (C\$2,881,130)

The above-noted allocation represents the Company's current intentions with respect to its use of proceeds based on the current knowledge, planning, and expectations of management. Although the Company intends to expend the proceeds from this Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds is deemed prudent or necessary, and the actual use of proceeds may vary materially from what is set forth above. The amounts allocated and spent will depend on various factors, including the Company's ability to execute on its business plan and financing objectives.

The Company continues to experience losses and has an accumulated deficit of US\$88,127,157 and negative working capital deficiency of US\$3,341,006 as of December 31, 2025. The Company may continue to experience losses until profitable commercial production at the Shymanivske Project is achieved. The Company has no current source of operating cash flow, and there can be no assurances that sufficient funding, including adequate financing, will be available to explore and develop its property and to cover general and administrative expenses necessary for the maintenance of a public company. The Company's status as a going concern is contingent upon raising the necessary funds through the issuance of equity or debt. The Company will allocate available funds, including the net proceeds from the Offering, in a manner that management determines to be in the best interests of the Company and consistent with its disclosed business objectives. Despite its accumulated deficit, the Company reasonably expects to have sufficient available funds to meet its business objectives and liquidity requirements for at least 12 months following the completion of the Offering. There can be no assurance that the Company's actual use of proceeds will not differ materially from its current expectations due to various factors, including changes in operational priorities, market conditions, and unforeseen expenses.

The Company's most recent audited and interim financial statements included a going concern note. In February 2022, Ukraine was subject to an invasion and an act of war. As of the date of approval of the December 31, 2025 consolidated financial statements, all Company work in Ukraine has been reduced to only essential items to keep permits in good standing and progress Ukraine government land transfer for the Shymanivske Project. The Company's status as a going concern is contingent upon the situation being stabilized such that the Company may continue its activities in Ukraine. These matters represent material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern. The Offering is intended to provide funding for the Company's ongoing activities; however, the completion of the Offering is not expected to eliminate the requirement to include a going concern note in the Company's next annual financial statements.

How have we used the other funds we have raised in the past 12 months?

The Company has not raised other funds in the past 12 months.

FEES AND COMMISSIONS

Who are the dealers or finders that we have engaged in connection with this Offering, if any, and what are their fees?

The Offering is being conducted on a non-brokered basis. The Company may, in its discretion and in compliance with applicable securities laws, compensate certain eligible finders for introducing purchasers to the Company. Any such finders' fees may consist of: (i) a cash payment of up to 6.0% of the aggregate gross proceeds of the Units sold to investors introduced by such finders and (ii) non-transferable broker warrants equal up to 6.0% of the aggregate number of Units issued by the Company to investors introduced by such finders (each, a "**Broker Warrant**"). Each Broker Warrant will entitle the holder thereof to acquire one Common Share at an exercise price of C\$0.20 for a period of 36 months from the Closing Date. In the event that the Common Shares of the Corporation trade at \$0.30 or higher on the Toronto Stock Exchange for a period of 30 days (which do not need to be consecutive), the Corporation shall have the right to accelerate the expiry date of the Broker Warrants to the date that is 60 days after the Corporation issues a news release announcing that it has elected to exercise the acceleration right.

The engagement of any finders and the payment of any finders' fees, if applicable, may be subject to approval by the TSX or other applicable regulatory bodies. There can be no assurance as to the completion of the Offering, the amount of proceeds raised, or that any finders will be engaged or compensated in connection with the Offering.
